

September 15, 2003

Connecticut's Clean Cities are pleased to present this special invitation to municipal and private fleet operators to attend the:

Green Your *Fleet!* Workshop & Luncheon

Thursday, October 30, 2003

Mohegan Sun Casino & Conference Center •
Uncasville, CT

Please join us to learn the "ins and outs" of alternative fuel vehicles (AFVs) and how they can benefit your organization. Come see how AFVs can:

- ✓ Lower your fuel expenses
- ✓ Diversify your fuel supply
- ✓ Reduce vehicle maintenance costs
- ✓ Extend vehicle life
- ✓ Protect the air we breath
- ✓ Save you money

The workshop will include the latest information on alternative fuel vehicle technologies for transit buses, refuse trucks, delivery trucks, school buses, and light duty vehicles, and will feature presentations from Bell Power Systems/John Deere, Cummins-Westport, FuelMaker, Gateway Community College, Southern Connecticut Gas, and many others. This is your opportunity to experience a "hands-on" demonstration of AFVs and learn how to access federal and state funding for both heavy duty and light duty alternative fuel vehicles.

For more information, contact the Clean Cities Coordinator for your area, or fax back the attached registration form today.

See you on October 30, 2003 at the Mohegan Sun!

Peter Polubiatko, Norwich Area Clean Cities (860) 887-6964
Lee Grannis, Greater New Haven Clean Cities (203) 627-3715
Ed Boman, Southwest Connecticut Clean Cities (203) 256-3010
Peter Casarella, Hartford/Capitol Area Clean Cities (860) 437-4119

The Connecticut Clean Cities invites

Municipal & Private fleet operators

To The Green Your Fleet Workshop & Luncheon

Thursday, October 30, 2003

9 a.m. - 4 p.m.

Mohegan Sun Casino & Conference Center, Uncasville, CT 06382

This is an opportunity for you, the fleet operator, to learn more about how alternative fuels can work in YOUR fleet to positively impact your bottom line and benefit your community.

- Find out why alternative fuels are needed in the heavy duty vehicle sector.
- Learn about Alternative Fuel Options for Heavy Duty Fleets: Refuse Trucks, Buses, Shuttles, Heavy Duty Equipment, and more!
- Understand what funding and incentives are available to businesses and governments
- Hear about successful alternative fuel vehicle projects in your area.
- Learn about the latest in alternative fuel options for today's light and heavy duty vehicles.
- Network with Connecticut's alternative fuel vehicle technology experts

*Join us to learn how **YOU** can be the answer to today's challenge of integrating new generations of alternative fuel vehicles.*
